## VICCARONE HEATING & AIR CONDITIONING TO PROVIDE COMPLETE HVAC SYSTEMS TO NEW LOCAL HOUSING PROJECT

*Viccarone HVAC is honored to start soon with the HVAC installation, ductwork design, and complete systems for CAMDEN WOODS complex in Strongsville, Ohio.*

**Cleveland, OH** – Viccarone Heating and Air Conditioning announces their HVAC system participation in an upcoming project, Camden Woods in Strongsville, OH.

After moving from Columbia Station headquarters in 2019 and constructing a new building and shop for Viccarone HVAC in Strongsville, OH, we are proud to be involved with Ruggiero Home Builders on the new project named Camden Woods. Residents will soon see Viccarone service vehicles in the area of Prospect and Royalton Roads joining in the new construction project.

As a major 55 and older community and an “all-electric” project, Viccarone is committed to this project’s HVAC success for residential families’ home indoor air comfort.

Gino Viccarone, local owner of Viccarone Heating & Air Conditioning started out his career 35+ yrs. ago working on many of the first heat pumps and all-electric developments in Strongsville, OH.

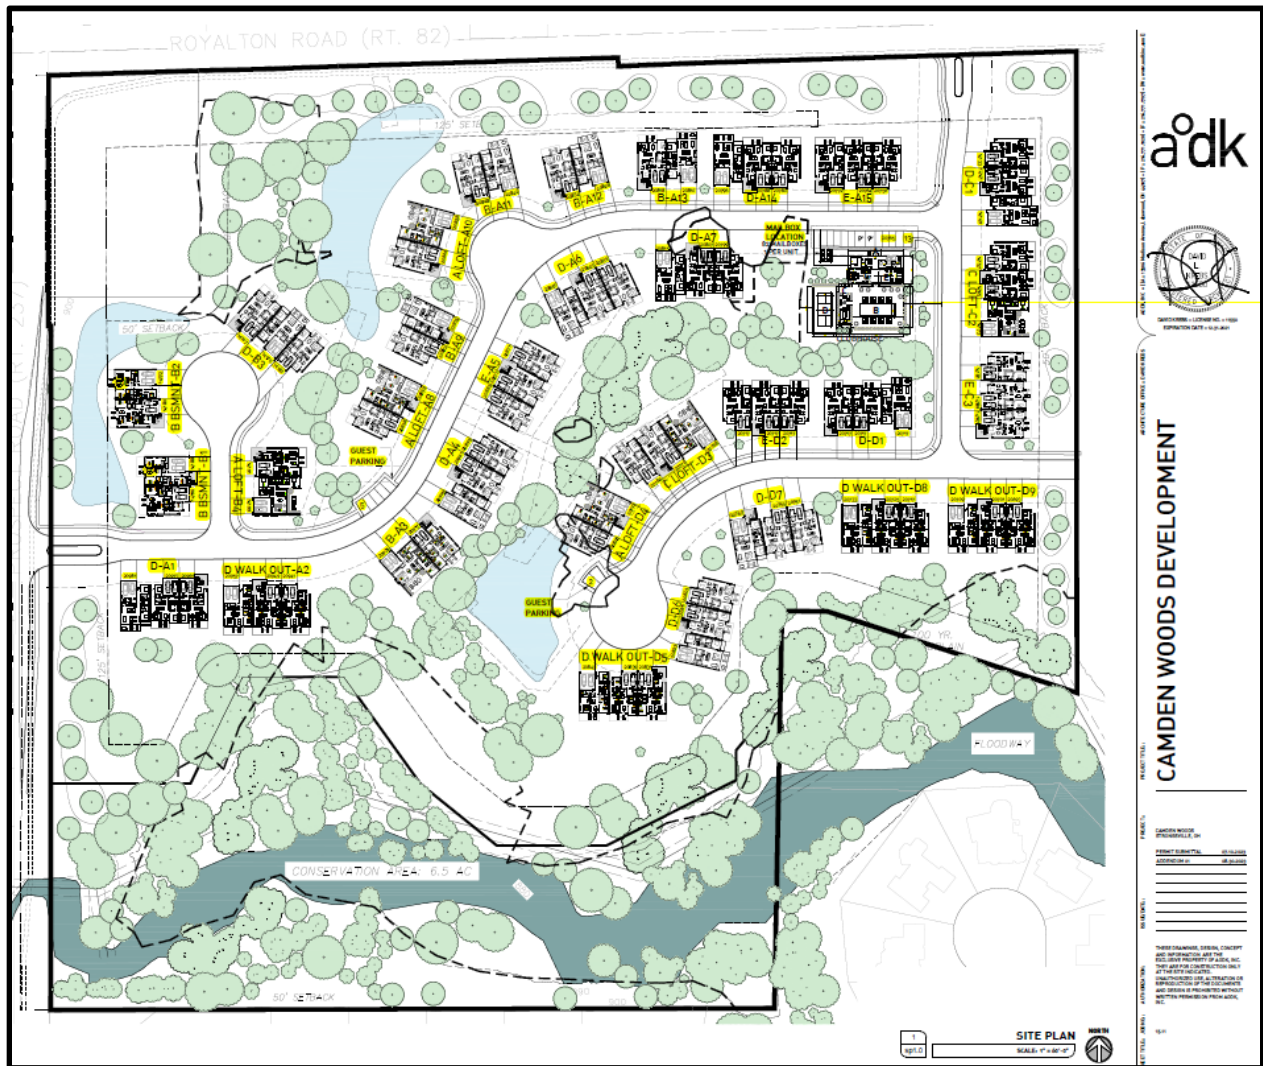

Equipment designs and efficiency technology has come a long way in air handling systems, and Viccarone is pleased to lead this charge in Camden Woods.

### **About Viccarone Heating & Air Conditioning.**

Viccarone Heating & Air Conditioning is a full-service heating and air conditioning company that has provided thousands of homes and businesses in the Midwest US with efficient and reliable custom HVAC systems. For 30 years, Viccarone has earned a reputation as the best residential custom HVAC systems provider trusted by dozens of new home builders and thousands of homeowners.

Today, with a trusted and trained staff of over 100 technicians and a vast fleet of service vehicles, Viccarone Heating & Air Conditioning is positioned to bring unparalleled high-quality components, installation, and service to both existing Viccarone HVAC systems and new installs alike.
